

# Graduate and Professional Spiritual Life

---

Azusa Pacific University's graduate, professional undergraduate, and nontraditional undergraduate students are invited to a journey toward growth and wholeness in a way that integrates intellectual and spiritual dimensions in the transformation of the soul.

APU invites graduate, professional undergraduate, and nontraditional undergraduate students to a deeper knowledge of God through Jesus Christ with a commitment to:

1. Facilitate opportunities for every student who engages with Spiritual Life to encounter the person and teachings of Jesus Christ.
2. Offer resources designed to enable students to explore their spiritual development in conjunction with their professional aspirations.
3. Ensure that the institution's Christ-centered ethos permeates all interactions and engagements with students.

Graduate, professional undergraduate, and nontraditional undergraduate students can participate through:

- Semimonthly email contact from a pastor
- The Prayer Partners Program (submitting prayer requests)
- Pastoral care and counseling

APU brings students to a deeper knowledge of God through Jesus Christ and therefore embraces the diversity of students and faiths in APU's constituency. While maintaining integrity with regard to the university's heritage and calling, the graduate and professional student chaplain and campus pastors are equally available to respond to the needs of all students in a grace-filled manner.
